35 cents

This was all that remained of a cottage at the north end of Haliburton Lake after fire destroyed the building Saturday afternoon. Cottagers and Dysart

firemen kept the blaze from spreading to nearby buildings and trees.

Cottage destroyed Residents organize bucket brigade

Fire destroyed a cottage on Haliburton Lake on Saturday, despite the efforts of nearby cottagers and the Dysart et al fire department to save it.

The cottage, owned by Frank Baumgartner, was unoccupied when the blaze broke out. A nearby property owner noticed the fire and turned in the alarm. Other cottagers quickly organized a bucket brigade, and a portable fire pump was

brought to the scene.

Telephones in the area have been malfunctioning since last Tuesday, but John Bruce of Fort Irwin Marina managed to put a call through to Dysart et al firemen, who were on the scene in minutes.

Nothing could be done to save the small frame cottage, but volunteers did manage to stop the blaze from spreading to trees and nearby buildings.

Tree, lightning cut phones

Haliburton Lake service interrupted last week

Telephone service to Haliburton Lake was back to normal late Monday after a series of interruptions that began last Tuesday, when a tree fell across a hydro line.

Bell area manager Tom Harper said the falling tree induced a current into the telephone system that caused several repeaters in the line from West Guilford to Haliburton Lake to fail.

While the event did not cut service entirely, it did produce static in the lines.

Bell crews were kept busy Wednesday and Thursday locating the burned out repeaters, and calls may have been interrupted during the repairs.

Service was back to normal by Friday, but more problems arose Friday evening when a thunder-

storm passed through the area. A direct hit on Bell lines caused one of two remote switchers at Haliburton Lake to fail, shutting down the system.

Saturday, Bell technicians installed a spare switching unit and restored service to Haliburton Lake customers.

Final repairs were carried out Monday, and according to Harper, some customers may have had calls interrupted during the work.

Harper said it was "unusual" for a downed tree to cause a surge of electricity in Bell lines, but said lightning strikes are more common. Safeguards are built into the lines, Harper said, but equipment can be damaged as the current travels to the nearest grounding device.

'Rubber stamping' criticized

Councillor wants tally of expenditures, money left

Accounts in Anson, Hindon and Minden are getting "rubber stamp" approval from council, according to Gary Kenney, and he wants that situation to change.

At a meeting last Thursday, Kenney said he could not vote to approve payment of general accounts after brief scrutiny at the council table.

"We do a disservice to ourselves when we pretend that we know what's going on here in five minutes", Kenney said. He said he could not tell taxpayers honestly that he knew how their money was being spent.

"I'd have to say that I'm just rubber stamping expenditures" said Kenney.

"I think we've been talking about rectifying it and we've got to rectify it".

Reeve Lyle McKnight said he did not "particularly disagree" with Kenney's point. "Maybe we should have a finance committee" McKnight said. "I think maybe (clerk) Elinor (Burk) would like us to have a finance committee."

"It's a complicated problem" Kenney said. "I think we have to adjust ourselves to priorities, and I think this is a high priority item".

Kenney said expenditures should be broken down into categories and a running total kept each month, so councillors could see how much money was budgeted for certain expenses and how much money remained in those columns.

McKnight said that "if you're going to have a budget every month you may have to hire more office staff", but Kenney disagreed.

"I honestly don't think so" he said. "I think we'd be saving work."

Kenney also balked at approving road accounts, although he is the chairman of council's road committee.

Examining a list of road accounts that had been handed out at the council table, Kenney said he could not "honestly reply" to where the money was being spent "and the numbers are kind of scary".

Reeve McKnight said that if bills submitted by the road superintendent were going to be questioned the questions should be asked by the committee before the accounts are written out for council's approval.

"It's his integrity that you're questioning" McKnight said. "It really should be monitored before it gets here".

Councillor Pat Burke, who serves on the road committee, said the issue was not whether road superintendent Earl Kent should or should not have spent certain sums, "it's how much has been spent and how much is left".

Lakes continue to decline

Low water levels and dry wells continue to plague property owners in Haliburton County despite the arrival of cooler autumn weather.

Lakes are now at their lowest level in several years, and they are expected to get even lower as water is drawn off to maintain navigation levels in the Kawartha Lakes and Trent waterway.

Mac Ellis, a water control technician in the Peterborough office of Parks Canada, says the Trent Severn waterway is "really in a critical situation now."

Despite inflows from the Haliburton reservoir lakes, levels in Buckhorn Lake are falling a centimetre a day.

The Gull River is currently providing 440 cubic feet of water per second to the system, and 185 cubic

feet a second are flowing down the Burnt River. But flows out of Buckhorn Lake are only 250 cubic feet per second due to evaporation.

Winter logs have now been placed in the Haliburton reservoir lakes, Ellis said, but that isn't expected to stop the decline in water levels.

Unless the weather becomes very wet, area lakes will remain below 50 percent of capacity, Ellis indicated.

"It's so dry that we could get a week of wet weather and we wouldn't even notice it," Ellis said.

"It'll take several weeks of above normal precipitation before there is any hope of recovery."

Ellis said flows through the system will have to be increased "to try to stop the Kawartha Lakes from

'Difficult year' for Guild, financial report shows

The Haliburton Highlands Guild of Fine Arts has just come through "the most difficult year we've ever faced", president Carole Finn told the organization's annual meeting.

It was a year marked by wranglings over the dismissal of former curator Lucinda St. Pierre, and a year in which members of the board "have become discouraged", Finn said.

It was also a troublesome year financially for the Guild, Treasurer Al Oakley told members who attended the meeting Saturday. An auditors' report shows a deficit of \$9,041 for the year ending May 31, 1983 although "that's not as bad as it looks" Oakley said, because money from the Guild's summer exhibition and sale is not included.

The Guild had hoped to generate almost \$117,000 in revenue over the year, but fell \$12,000 short of that goal, according to the report.

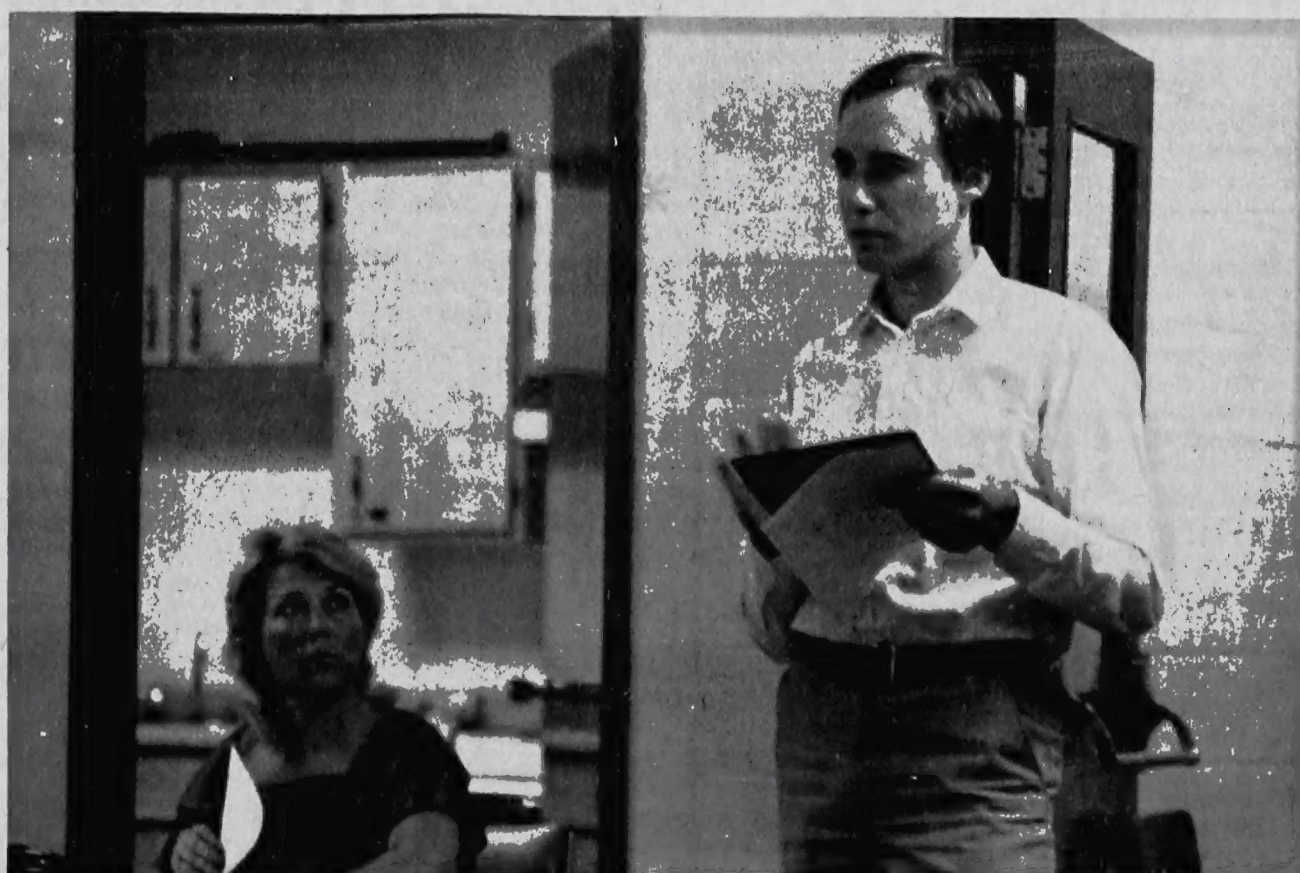

Donations were substantially lower than anticipated, said Oakley, "which represents basically the general economic environment".

"A few disappointing fund raising activities" also contributed to the shortfall in revenue, Oakley said. An art auction brought in less money than had been hoped, and revenues from other exhibitions and sales were also less than anticipated.

Building repairs and maintenance, salaries, advertising and many other costs were within budget, the report indicated. Operating the gallery is a major expense for the Guild, but Oakley said the group hopes the facility can continue to operate 12 months a year.

"But that will require \$20,000 to \$25,000 additional fund raising" he said.

Please turn to Page 3

Former students invited to attend reunion at HHSS

Former students of Haliburton Highlands Secondary School and the Minden and Haliburton Continuation schools are invited to attend a 30th anniversary reunion at HHSS this weekend.

The reunion and homecoming will get underway Friday afternoon at 2 p.m. with a football game, as the HHSS Redmen take on I.E. Weldon.

Registration for the weekend begins at 4 p.m. and will include a reception in the gymnasium that continues through to 11 p.m. Registration continues Saturday morning at the school. An open house has been scheduled from 1 p.m. to 4 p.m., and it will be followed by a dinner at the Haliburton Legion from 5 p.m. to 8 p.m.

Following the meal there will be a dance at the Haliburton Curling Club from 9 p.m. to 1 a.m., and the lounge at the Legion will also be open for visitors.

Sunday is given over to visiting old friends and families.

Petitioners ask Minden council to ban strippers

A group of Minden area ratepayers have called on Anson, Hindon and Minden council to take action against the possibility of future strip shows or 'exotic dancers' at the Rockcliff tavern.

The request came in the form of a petition signed by 41 ratepayers.

"We feel it is wrong for such evil and distasteful shows to be brought into our community," the petitioners wrote, adding that they spoke not only for themselves but "on behalf of our children and grandchildren as well."

"As year round residents and taxpayers" the petitioners called on council "to take immediate action against this issue at hand as well as others that may arise in the future."

The group noted that the community should be "clean and moral" and concluded that if the Rockcliff needed attractions such as 'exotic dancers' to draw people, council should "consider closing them down."

The petition was received without comment by council, who made their feelings known on the matter at a previous meeting.

The tranquility of autumn has already begun to envelop the Highlands. This scene, on Soyers Lake Road, is typical of the quiet beauty that can be found on the county's less travelled routes.

Parents help sought for study

Local residents are being asked to assist the board of education in carrying out a study of the county school system.

The study, known as Co-operative Evaluation and Development of School Systems (CEDSS), is funded up to \$20,000 by the provincial education ministry. It will examine English from Kindergarten to Grade 13, Intermediate Mathematics (grades 7 to 10), the role of the teacher and principal, and the role of the director of education.

Study chairman Doug Mitchell said subcommittees of taxpayers, teachers and board members are being established for each topic.

Their first task will be to develop 'instruments' of evaluation, which may take the form of interviews, questionnaires, and observations.

Once these have been set up, the committees will carry out their portion of the study, a task which is expected to be completed by December.

Findings will be set down in a report. Ministry of Education officials will spend about a week in area schools carrying out their own evaluation, and will also write a report.

The local committees and Ministry officials will then meet to compare their findings. A final

report for the board of education will be drafted by the ministry. It is expected to be ready in April or May of next year.

The local board is not bound to act on any recommendations that may be included in the report, but can use it as a guideline for the changes it may want to make in the system.

Mitchell believes the study will be beneficial to the local education system.

"I think real value can come out of this," he said. "If it is done right, and if people co-operate, it will be super."

OPP report

Inquest to be held

An inquest into the death of a Scarborough boy, killed with a companion while operating an all-terrain cycle in Minden township last May, is scheduled for this week. The hearing commences at 9 a.m. Tuesday morning, September 13, and is expected to conclude the following day. It will be held at the Minden Municipal Building and Regional Coroner J.P. MacKay, M.D. is presiding.

The deceased boy, Gregory Roy Fallahay, age 11, had been driving the A.T.C. with his friend Howard James Jamieson, age 10, when they were struck by a car as they crossed Hwy. 35 near Mountain Lake. Both died at the scene.

Youths sentenced

Two youths appeared in Provincial Court in Minden last Wednesday and pled guilty to breaking into the Haliburton Brewers Retail Store and stealing \$203 worth of beer.

The two had been returning to their Redstone Lake cottage shortly after midnight on August 17 when they passed the store and decided to break in. A side door was pried open and 13 cases of beer were removed.

John Vincent Eastwood, 17, of Waterdown, and John Christian Shoemaker, 19, of Hamilton, were each fined \$400 and placed on probation for one year.

Marijuana seized

Some 121 marijuana plants were

seized on September 2, when they were discovered growing in a garden plot at Long Lake.

Charged with cultivating a narcotic is Howard Wayne Robinson, 31, of Dudley Township.

Dysart will look at need for computer in offices

Dysart et al council will take a close look at the benefits and costs of installing a computer system in the municipal office.

Council discussed the matter Monday, focusing in particular on possible cost savings.

The municipality presently pays \$400 a month to a local accounting firm for services that include computer time, and annually spends \$12,000 for computerized tax billing. An appropriate computer system could reduce the accounting cost and allow the municipality to prepare and print its own tax bills.

While there was general agree-

ment that the municipality could benefit from a computer system, councillor Lloyd Leadbeater stressed the need to study the matter carefully in order to choose a system that would serve the municipality's needs and allow for growth.

Reeve Murray Fearrey expressed concern that another person might have to be hired to operate the equipment.

Council appointed Leadbeater and councillor Dorothy Baker to investigate the options along with clerk Wayne Wood. Their report is expected in November.

MPP critical of directory Eakins asks Bell officials to reconsider print

MPP John Eakins has joined the ranks of people who object to the small print in the 1984 Lindsay/Peterborough telephone directory.

In a letter to Bell Canada area manager Tom Harper, Eakins expressed "disappointment in the new format and in particular the size of the print."

"I personally find it difficult to read, and I know from the calls that I receive that this opinion is general," Eakins said. "It would appear that the only person to benefit from the new addition would be the optometrist by adjusting eyeglasses."

"I would respectfully request that the appropriate advisors in Bell Canada be asked to review the format of next year's directory," Eakins concluded.

Harper noted in his reply that the small print "is not new. It has existed in the Toronto directory since 1976." In 1982, he said, the five column format was adopted.

"Studies showed that there were no significant problems with subscribers adjusting to this size," the Bell area manager said.

Standardizing the directory across the province "will result in a

saving of about \$400,000, or \$1.1 million if you include Toronto."

The Peterborough/Lindsay directory is the 15th telephone book to be changed to the small print, five column format, Harper said.

He acknowledged that some people will find the new format more difficult to read, but noted that senior citizens and handicapped people can get free directory assistance, as outlined on page 13 of the directory.

In conclusion, Harper assured Eakins that the MPP's comments would be passed on to other Bell officials.

Blizzard in Minden?

The Toronto Blizzard may hold a two day training session in the Minden area in the near future.

Council learned that the team may be interested in visiting the area from Rockcliff Tavern owner Dave Willis, who asked council's permission to invite the Blizzard to Minden.

Clerk Elinor Burke was asked to direct a letter to team representative Peter Weintraeger to obtain more details.

Brady Lake launch closed

One is enough, council decides after report

Responding to a request from ratepayers, Anson, Hindon and Minden council has decided to upgrade a boat launch at the north end of Brady Lake and abandon a second launch adjacent to cottage properties.

Council made the decision after hearing a report from municipal law enforcement officer Dick Schell.

A request to abandon one of the launches came from Mr. and Mrs. J. McGrath, owners of an adjacent property. McGraths told council in August of problems created by users of the launch, and noted that a previous council decided in 1977 that it would not be maintained. The couple said a more suitable site for launching boats existed at the north end of the lake, and questioned the need for two ramps on such a small body of water.

Council agreed to investigate the matter, and asked Schell to inspect both sites.

At a meeting Thursday, Schell said the launch at the north end of the lake appears to be used frequently, and does not abut cottage properties. He said more parking could be created at the site if the municipal road crew cleared brush.

Council had thought that the site was owned by the Ministry of Natural Resources but Schell said it is on municipal property.

Council agreed that only one launch site is needed on the lake, and that the more isolated of the two sites was the most suitable.

The launch adjacent to the McGrath property will not be maintained, and signs will be posted to direct boaters to the other facility.

Members of the Haliburton Highlands Guild of Fine Arts listen intently as president Carole Finn outlines the year's accomplishments and problems at the

group's annual meeting Saturday afternoon at the Haliburton Curling Club.

Councillor wants running tally of spending

from page 1

McKnight said the monitoring of road accounts should take place at the two road meetings held each month.

"If you're having doubts about the amount of money that's being spent, you have to start to see what's going on at the first meeting," McKnight said.

But Kenney continued to emphasize that he could not glance over accounts submitted at the council table and approve them.

"I really can't look at this paper and recommend them," Kenney said. "I know it has been spent and I know it has to be paid for, but that's not a recommendation, is it?"

Council took no specific action at last Thursday's meeting, but the matter is expected to be considered again at upcoming sessions.

Beach issue going to court

The issue of who has use and control of Silver Beach on Lake Kashagawigamog should be resolved in the near future.

The owners of Silver Beach camping and trailer park have subpoenaed Dysart et al to appear in court. Among other things the camp ground operators are seeking \$15,000 in damages from the municipality.

The beach has been the subject of controversy for several years, with

the municipality claiming that all but a small portion of the beach is public property, and the camp ground owners maintaining that they have the right to reserve the beach for their clients.

Both sides were close to agreement at one point, but the matter was not resolved.

"It will come to a head now and it will be over with," reeve Murray Fearrey told council Monday. "It has been going on too long."

Minden improvements within budget

Sidewalks to be finished this fall, remaining funds will go for pedestrian bridge, ski trails

Improvements to Minden's downtown area are on schedule and within budget, council has been told.

A report on the project from councillor Gary Kenney indicates that all of the anticipated work on sidewalks within the downtown area should be completed by the end of October.

A total of \$199,000 was available at the start of the project under a cost sharing program among the municipality, the provincial government and members of the community's business improvement area.

Up to the beginning of September, some \$60,000 had been spent to build sidewalks of interlocking stone or concrete in the BIA area north of the Gull River bridge, from the BIA boundary to the library/cultural centre, in the BIA from Northland Surplus to the fruit market, and from that boundary to the Red Cross hospital.

Kenney told council that a further \$16,000 for labour and \$52,000 for materials would be spent to build sidewalks of interlocking stone from Home Hardware to the bridge and from Sandy White's to Vasey Real Estate. This work will include drainage improvements and the installation of conduit lights that may be added in the future.

Businesses in the area may also have interlocking stone laid in front of their stores in conjunction with the sidewalk improvements, but must pay for the work at cost.

Kenney said \$70,000 should be

available for projects to be carried out between November of this year and May of 1984.

Anticipated work includes the construction of a pedestrian bridge to span the Gull River near the Clergy House, cutting of cross country ski trails between Minden and Scotch Line winter park, and the construction of toboggan runs within the winter park.

"It looks like we're going to be

able to do it all within budget," Kenney told council last Thursday.

Reeve Lyle McKnight commended Kenney for his report and work on the project.

The reeve said he had heard some criticism in the community about the building of a concrete sidewalk from the fruit market to the hospital since it passed a vacant land, but defended the move as a sound one for the community's future.

"We can't assume that the land will always be vacant," McKnight commented. "If we don't show some optimism for our area, I don't think we can expect anybody else to."

Kenney agreed, and noted that the sidewalk work represented "the best return on municipal dollars that you could get," since 80 percent of the cost was met by a grant.

From the front page

Lake levels dropping

dropping too fast." But he added that "everything that can possibly be done, is being done" to keep lake levels up.

Grounded docks and stranded boats aren't the only problems arising from the dry weather - many people are running short of water as well.

Lack of rain has played havoc with ground water levels, reducing flows into shallow wells.

Bob MacNaull, chief public

health inspector for the local office of the Haliburton, Kawartha, Pine Ridge District Health Unit, says the unit does not usually hear many reports of dry wells, since generally there is no health problem involved.

He advises people who are short of water to use Dover spring, "a source that has good quality and quantity."

No end to the dry conditions appears to be in sight.

Guild deficit after 'difficult year'

One positive note is that the gallery has just received a grant of \$1,150 from the Haliburton Rotary Club for fire alarms and upgrading of the lighting system.

In other matters at the annual meeting, members ratified a new constitution and by-laws, and adopted a policy book which will be reviewed in January, and yearly

thereafter.

Elected to the board of directors for the coming year were Jackie Banks, Linda Beachli, Paulette Blake, Barb Bolin, Barbara Carver, Norma Douglas, Mike Easton, Dorlene Elstone, Carole Finn, Dr. Harry Good, Mary Hastings, Audrey Heywood, Barbara Peel, Bob Penfold and Ken Wilson.

Mini fair gets another chance

Minden's mini fair will get one more year to prove itself before council decides whether the project should be abandoned.

At a meeting last Thursday, council agreed to allow the mini fair building to remain in place over the winter, and will ask the Haliburton County Farmers Association to prepare the building for snow load in exchange for free use of a portion of it next summer.

In a report to council, Gary Kenney said three buildings were constructed within a \$14,700 budget earlier in the year for use as a craft fair, but it soon became apparent that "actual response was not going to meet the need we had foreseen."

Since the buildings were designed to be easily portable, one was moved to become the Lutterworth/Minden boundary information centre and a second was placed at the Minden fair grounds.

The third became the mini fair

adjacent to the municipal parking lot. Space was to be rented out to local crafts people, but few took advantage of the opportunity.

"People feel that it's still a worthwhile type of building to have," Kenney said, but added that very few have made "the type of commitment we need."

Classical music lovers asked to intervene

Classical music lovers are once again being asked to speak out in support of Cobourg radio station CFMX.

The station has been sold, and the new owner is applying to the Canadian Radio Television and Telecommunications Commission for a renewal of CFMX's broadcast licence.

Interventions for or against the licence renewal must be received by the CRTC by September 23.

Anyone wishing to intervene

must write to the director general of broadcast licensing, 1 Promenade Du Portage, Hull, Quebec, K1A 0N2 before that date. A copy must be sent to CFMX FM, Box 520, Cobourg, K9A 4L3 by registered mail, and proof of the mailing must be included in the letter to the CRTC.

Local supporters of the station have arranged to send a group intervention to the CRTC. Letters on the matter can be dropped off at the Echo office in the next few days.

Scrutiny

Keeping track of the family bank account is a relatively simple matter. Even so, people sometimes find themselves short of funds, having spent more than they anticipated. Imagine how much more complicated it would be to keep track of the hundreds of the thousands of dollars that a municipality spends to meet its diverse expenses. Of course, careful accounts are kept and expenditures audited annually, but still it is no easy matter to be aware of every dollar that comes into and goes out of a municipal budget. And yet that is precisely what municipal councillors have to do if they are to fulfill their roles as representatives of the people.

Councillor Gary Kenney of Anson Hindon and Minden drew attention to the point last Thursday when he refused to endorse resolution authorizing payment of the municipality's general accounts. Kenney said he could not honestly vouch for the validity of each expenditure, nor was he aware of whether the municipality was spending within its budget or likely to exceed it. He said that approving accounts after five minutes of scrutiny at the council table was mere "rubber stamping", and should be understood as such by the general public.

Kenney's concerns appear to be valid. Municipalities spend taxpayers' money, and members of council must be answerable ultimately for every account that is paid.

It would seem to be a relatively simple matter to set up a finance committee which could keep track of municipal spending, and it is surprising that no such committee has been formed in Anson, Hindon and Minden, since many other area municipalities have a finance committee to scrutinize accounts.

Councillors in Anson, Hindon and Minden could do their job better if they had a means of keeping a closer eye on expenditures. A municipal finance committee appears to be overdue.

A reckoning

Members of the Guild of Fine Arts could be forgiven for feeling a little depressed last Saturday when they heard the organization's year end financial report. The Guild is struggling to keep its programs alive in the face of revenues that have not met expectations.

To some extent the Guild's problems have been the result of misunderstanding by the public, economic hard times, and the bad taste that was left in many people's mouths after the dismissal of former gallery curator Lucinda St. Pierre.

The economy appears to be recovering now, and the curator issue is for the most part water under the bridge. But the Guild's public image could continue to be a factor in its future.

It would be fair to say that many people in Haliburton either are indifferent to the Guild or perceive it as some kind of elite organization. Yet neither attitude is defensible.

Whether or not you are interested in pottery or weaving or woodwork, you should recognize that art is a humanizing force in an increasingly noisy, ugly and superficial society. You may never visit the Rails' End Gallery, but its presence makes the community a better place nonetheless. Haliburton cannot afford to lose such a unique and valuable resource.

At the moment the gallery's existence is not threatened, but its year round availability is. Unless more money can be found, the station may have to shut its doors for several months each winter.

That would be a loss to the community, and one which must be avoided, even if that means more tax money will have to be allocated to the facility.

To The Editor:

Re: The Korean Airliner Tragedy

The world press and most of the leaders of the western democracies have condemned the shooting down of the Korean airliner as a stupid, cowardly act of murder and rightly so. The American president lays the blame for the incident entirely at the feet of the Prussian politbureau.

However, a surprisingly large number of informed and unbiased commentators including some from the CBC, are asking some relevant and embarrassing questions as to the Korean and American administrations' involvement in this incident.

They question the mechanism that led the Korean pilot to stray 500 kilometres into Russian airspace. They point out that the sophisticated computer-controlled directional system was accurate to within 600 feet and that such an error is literally impossible. They suggest that the airliner was over Russian territory knowingly and quote two passengers on a previous flight who noted that the stewardesses turned off the cabin lights and the pilot turned off the navigational lights at one point of passage over Sakhalin.

They also note that Korean civilian airliners have been used as spy planes in the past. They have also noted that the American and Japanese communication surveillance is so accurate that the minute the airliner entered Russian airspace they would have been aware of the fact and should have notified the pilot of his dangerous condition. They suggest that both countries were aware of the intrusion as a planned event. They also suggest that the tapes of the conversations between the Korean pilot and his home base should also be heard. Did the pilot refuse to heed the Russians request to land?

The Russian politbureau is almost paranoid about secrecy. They are incapable of thinking either rationally or humanely when it comes to defence secrets. Their own people have suffered cruelly at the hands of their masters when it appeared that some inconsequential defence secret was at risk. The Americans are aware of this paranoia and indeed share some of it themselves. However the blame can be apportioned in this affair, on thing is certain, the people of the world in both camps are once more put at extreme risk of nuclear war and the mad hawks of both the Kremlin and the Pentagon are rubbing their hands in glee.

H. Michael Collins
Gooderham, Ontario

To The Editor:

We have a cottage on Lake Kashagawigamog and are a member of the Old Allsaw Road cottage group.

The old bridge at Ingoldsby is very rustic looking and adds to the surrounding countryside. What a shame it would be to tear it down. There just aren't too many 'old bridges' left to enjoy.

You can see new bridges in the city and on highways, but you have to go out of town to enjoy old bridge.

It's surprising what a little work and paint will do.

Let's keep as many old bridges as we can.

Sincerely,

Doris Godard

To The Editor:

On the weekend of September 4 and 5 our car was stolen from behind our place of business. We reported the theft as soon as we noticed the vehicle gone. We received a prompt visit from the Minden detachment of the O.P.P.

On the Tuesday morning we received a call from the Minden O.P.P. to pick up our car in Peterborough. The O.P.P. there had arrested 2 youths earlier that morning.

We would like to thank both the O.P.P. stations for their prompt attention and the speedy recovery of our car.

We are all too quick to criticize our police departments and we feel that they should be commended for their good work.

Thank you to the O.P.P.

George and Elaine Schmid
Haliburton

To The Editor:

My seven month old grandson was born with a hole in his heart and must undergo open heart surgery later this month. Our family doctor was advised by two specialists that we Brian must be watched day and night, and is to receive prompt treatment at the slightest infection or breathing impairment.

You can imagine, why his mother and I became upset, when the doctor on call refused to come back to Haliburton Hospital at 12:15 a.m. The doctor prescribed a cough medicine over the phone. We were told we could not call our own doctor, we must take the doctor on call.

With this news we rushed Brian into the Civic Hospital in Peterborough where he is still in Intensive Care. I believe something should be done about this regulation at the hospital, as this is the fourth time Brian has been rushed into

You know, they say that it's always hard to say goodbye to someone you have worked with for many years. This was the case of the Brandons who operate Northland Sales in Minden. Mrs. Annie Kernohan, who has been a valued employee at the store for the past 17 years, is retiring. I have personally known Mrs. Kernohan for a great many years, meeting her each and every week and sometimes twice a week when I would be making my calls to the Northland Sales store to pick up advertisements and news, since the store serves as an office for us for the convenience of the people of Minden and vicinity. I don't think that there was ever a time that I dropped into the store that Mrs. Kernohan didn't have a big smile on her face and she was always willing to go out of her way to give the customers good service. She was blessed with a great sense of humour and on many occasions when I would drop into the store and chat with Slim and his son Stuart on the subject of everything from music to politics, we would sometimes all end up laughing and Mrs. Kernohan would be standing by having a great chuckle and getting quite a kick from us three guys clowning around. I know for one that I am certainly going to miss her in the store and I am sure that many, many more customers to the store will feel the same way. I would like to join with Mrs. Kernohan's many friends in wishing her many years of happy retirement. With Mrs. Kernohan gone Northland Sales may never be the same.

This coming Sunday will mark the occasion for the third annual Terry Fox Run for the Marathon of Hope. Only by participating can you make it a success. Terry Fox, a legacy of courage, strength, hope and humour is no longer a stranger to anyone. But time has neither diminished the impact of his marathon nor lessened the need to continue what he began. There are many ways in which you can still get involved. You can run, walk, jog, stroll, ride, wheel, organize, sponsor or what have you. Thousands of cancer victims lie in Canadian hospitals. They need your help. You can help by picking up a pledge sheet at Mike's Milk in Haliburton or at Beckers in Minden. Get busy and fill your pledge sheets out and head down to the town dock at Haliburton and join the Terry Fox Run which starts at 1 p.m. Let's not forget that the Terry Fox Run is not a race. It is a continuation of the fight against cancer through the Marathon of Hope begun by Terry Fox. This Sunday don't let Terry Fox down, be in the lineup when the gun sounds and everybody is off for their destination. Remember its this coming Sunday, September 18.

The Fenelon Falls Oldfliers organized a power skating and hockey skills clinic at the Fenelon Falls Arena recently. Leading a team of able instructors was the star winger of the Los Angeles Kings, Bernie Nicholls who when he is not playing hockey resides at West Guilford. We understand that 44 boys from the Fenelon Falls area took part in the hockey school and received two hours of instruction each day for the week.

Frank McCarron, the new manager of the Chamber of Commerce was a recent guest speaker at the Rotary Club of Haliburton's weekly meeting. Frank was born in Amherstburg, Ontario and attended Wilfred Laurier University. He graduated with a B.B.A. (Bachelor, Business, Administration) degree. His outlook on the future for Haliburton County is one of the very high potential. The new Chamber manager pointed out that with items such as retirement at a younger age, worksharing, shorter work week, change in American dollars, spendable cash due to charge cards, amount of undeveloped land, everything is in our favour for the years ahead.

Joan Filman, who operates a cottage resort at Haliburton Lake, was in the office one day last week and was wondering if I knew of any person in the village of Haliburton who is associated with any organization or looking after the plastic bread tags. If so would they please get in touch with Joan by phoning 754-2592. We understand that there is some person in Haliburton who is in charge of gathering these tags.

It would appear to us that the Highlands of Haliburton never seems to receive the publicity and news coverage which they so rightly deserve. We always seem to be the forgotten county. I sometimes think that we can see a bit of improvement in this area but there is still a long way to go. How many times on the radio and TV do you hear about Muskoka and other tourist areas, but seldom a mention of the Highlands of Haliburton. It's about time that we received a break.

The Haliburton Huskies are getting ready to embark on another hockey season. As most of us know you can't operate a hockey club in this and age on wind. It takes money and a lot of money. In an effort to raise some of this money to operate the team the management has decided to sell seasons tickets in advance for \$30 which will include 15 regular scheduled home games. As a bonus all season ticket subscribers' names will be thrown in a hat and a draw will be held on December 18 and the winner will get as a prize a trip for two to Nassau for one week. Bob Nichol will be in charge of selling these season tickets. You can reach Bob at 457-2631.

Pic of the Past

Do you
remember
where
this gate was,
and what lay
behind it?

Our thanks this week go out to Norman P. Smith of RR 2, Haliburton for submitting this most interesting photo for our Pic of the Past. Many of you will certainly recognize this famous gate from this photo which was taken in the year 1932 showing the gateway to Peter John Borden's Golf Course garden. At that time Mr. Borden was the owner of the Haliburton Highlands Golf Club at Haliburton which is still going strong and now owned by Keith Stephenson.

Queen's Park Report

John Eakins, M.P.P.

My report this week and next week will be much longer than the usual Queen's Park reports. I am extending the length of the report because of the calls I have received from people concerned about the cost of hydro and the use of nuclear power. I do hope that everyone will take the opportunity to read the complete column and following your perusal, I would be pleased to have your comments. It is time that we took a long, hard look at Ontario Hydro and the use of nuclear power. This Queen's Park report will be followed next week with Part 2.

Hydro and nuclear power - Part 1

In the wake of the accident in Pickering's Number One reactor, which spewed 900 litres of heavy water a minute into a containment room, Liberal Leader David Peterson has called for the reconstitution of the Select Committee on Hydro Affairs, citing the following circumstances.

On August 1, radioactive water poured from a gaping hole in a ruptured pressure tube at Pickering, on the fringe of Canada's most populous area, and subsequent incidents eventually shut down three of the station's five reactors, alerting us to technical difficulties, and the costly - potentially frightful - consequences of Hydro's growing dependence on nuclear power. The "loss of coolant" (similar to the U.S. Three Mile Island incident) was the first within a CANDU reactor. Hydro officials had assured us that the zirconium alloy tubes would always leak before rupturing, permitting repairs to avoid a major accident.

This rupture overshadowed two other significant Pickering accidents: a heat exchanger malfunction sending 6.8 litres of tritium-laden water into Lake Ontario, and an operator error, causing automatic shutdown.

We are assured that radioactive discharge can be safely contained, but only a full explanation of the accident will reveal the implications of the rupture for the safety of the CANDU design.

The extent of Hydro's nuclear commitment must be scrutinized.

For example, this series of accidents will cost Hydro customers at least \$15 million for replacement fuels: repair and down-the-line expenses could run the figure beyond \$1 billion.

Pickering is a recent trouble spot. Accidents elsewhere have caused shutdowns and costly repairs: Bruce 2 shut down twice in 1982 - over \$7.5 million was spent on replacement energy provision alone during a 75 day period; Bruce 4 was shut down in March '83 for repairs to leaky pressure tubes and the primary heat transfer pump; a hydrogen leak shut down Bruce 1 for 19 days in April '83; early this year, Pickering 1 and 3 were shut down for planned repairs. Down times mean millions of dollars in extra costs, and the serious unexpected rupture raises the spectre of system-wide shutdowns and repairs, costing billions of dollars.

There are no older full-scale commercial heavy water reactors on which to judge the future performance of Hydro's CANDU reactors. The oldest are the four at Pickering A - only 12 years old. Hydro arbitrarily expanded their projected lifetimes from 30 to 40 years for borrowing purposes, but no one knows when the reactors might become embrittled or wear out.

Hydro travels uncharted waters in the hope that Ontario's energy future does not run aground. Moreover, it would be folly to view the Pickering shutdown from the narrow perspective of costs.

Planners within Hydro have embraced nuclear power as a child does a new toy, arbitrarily picking nuclear power as the force of the future, placing all its eggs in the nuclear basket. Hydro's Chairman has forecast that 66 per cent of our electrical energy will be from nuclear generation by 1990. Fossil fuel thermal plants are placed in mothballs as nuclear construction continues apace.

Nuclear energy surpassed water power and coal as the largest power generator in Ontario in 1981. Non-nuclear installations worth billions of dollars have been - or will be - mothballed. Some examples: the Lennox oil-fired station near Kingston, which cost \$489 million to build, mothballed in 1980 and 1982; the Wesleyville oil-fired station cancelled midway through construction, at an ultimate cost of \$460 million; two 300-megawatt coal-fired units at Lakeview to be mothballed April 1, 1984; six R.L. Hearn coal-fired units shut down, with remaining two operating part time until closure in 1985; Windsor's coal-fired J. Clark Keith Station scheduled to be mothballed by year end, after receiving \$23 million in renovations; Atikokan and Thunder Bay coal-fired units tentatively scheduled for mothballing.

Mothballing Lennox will prove terribly expensive. \$60 million has already been paid not to take delivery of unneeded heavy oil, and Hydro is locked into a 15-year contract with Petrosar, to buy 7.3 million barrels of oil annually, at a cost likely to exceed \$900 million.

Add to this, costly miscalculations which have ominously deepened Hydro's nuclear financial commitment: a 40 year contract to pay about twice the world price for uranium, at an additional expense of \$1.5 billion; \$69 million spent on Bruce's heavy water plant C before it was discovered to be unnecessary; \$396 million spent on heavy water plant D before construction was halted; mothballing costs run to \$15 million, and an over-supply of heavy water will lead to the mothballing of one of Hydro's two remaining plants.

Mothballing, implying that plants can be used in the future, may be a misnomer, since federal studies show deterioration can prevent heavy water plants being recommissioned.

More next week.

From the Chamber

by Frank McCarron

Once again this week we are pleased to be able to announce more details of our annual meeting day. The annual meeting will be held on October 19 at Wig-a-mog Inn with a full day of seminars and meals available for a very reasonable fee. It is with great pleasure that we report that Dr. David Blenkhorn will be here to lead a morning seminar as our keynote speaker on "Quality Counts -- Lessons from the Japanese". Dave Blenkhorn is a member of the Business Administration Faculty at Wilfrid Laurier University in Waterloo and has kindly consented to take time out from his busy lecturing and authoring schedule to be with us on October 19.

Our County is beginning to come very adept at getting influential conventions as well as conventions of quite a good size. During the course of the last week we had a convention of the Ontario Chamber of Commerce Executives as well as the executives from CBS Records. Coming up next April and May we have two very large conventions from the Lions Club and the Legion. Thus, we are showing the world that though we do not have large hotels we are capable of professionally handling large conventions.

The new Haliburton Highlands County Maps recently arrived in our office, after a two month delay. They still retail for an economical low price of 50 cents and are now updated to include metric descriptions of the scenic tours as well as properly numbered roads in the County.

To see and do

September 17 will be a super day to be in Minden as the second weekend of the Harvest Festival gets underway. The theme this year in Minden will be a Caribbean Festival. There will be lots of good food as well as audience participation events and entertainment. Passports are only \$5 and are available from the Chamber of Commerce office as well as from the local committees. The \$5 passport will get you in to the Stanhope event on the 24th and the Haliburton Harvest Festival on October 1 as well.

The Haliburton Highlands Secondary School will be having a 30th anniversary Homecoming on September 16 to 18, 1983 at the High School. Friday night will feature a football game and registration as well as a three hour reception in the gym. Saturday there will be sporting events throughout the day followed by an open house at one p.m. and dinner at 5:30 p.m. Dinner tickets are \$8 and available until Saturday morning at the school. Saturday night there will be a dance at the

Curling Rink followed by a late bus lounge at the Legion. Sunday there will be family and church at individual times.

Continuing until the 27th the Agnes Jamieson Gallery in the Minden Cultural Centre is the new show by the Lindsay 5. These five talented artists are presenting works in various media including oils, water colours, pen and ink, pottery and photography. This show is quite fascinating in its diversity and should be seen by all. More details can be gained by calling the Agnes Jamieson Gallery at 286-3763.

The Rails' End Gallery in Haliburton is currently featuring a new show called "Fingering Fibres Exhibit". This show consists entirely of hand made knitted and crocheted items of clothing and accessories, all of which have been produced by artisans from Ontario and Quebec. And everything in the show is made from fibrous materials. The Gallery is open from Tuesday to Saturday 11 to 5.

Now that fall is here it is a wonderful time of year to visit the Minden Wild Water Preserve on the beautiful Gull River. On September 17 and 18 the Open Canoe Slalom is held on the new site. Saturday there will be practice from 12 to 5 p.m. and on Sunday the Open Canoe Slalom Championships will take place from 9:30 a.m. to 4:30 p.m. This event is wonderfully timed to coincide with the beautiful fall colours so camera buffs may get beautiful action shots with fall colours for the back drop. Cars may be parked in the parking lot on the west side of Horseshoe Lake Road.

If you do not see your special event here that your club or organization is sponsoring you should have called our office. Any group holding a special event may reach the Chamber of Commerce at 286-1760 and give us the many details of your special event that we may mention it in future columns and press releases.

Peterborough. Twice by ambulance - the past two times we got the same doctor on call who sent him home and we rushed him to Peterborough ourselves. If it had not been because of our judgement his life may not have been saved.

I'm sure other parents feel the same way, that having children born with serious medical problems, they should be and are entitled to call their own family doctor. After all, Canada is supposed to be a free country.

Mrs. Beverly Parish
Mrs. Susan Reid

To The Editor:

I wonder how many parents who have children find that when the children do wrong our hearts are grieved, but do you ever wonder how God's heart must be grieved when his children do wrong against Him? God have us His best, His son Jesus who died for all our sins, and He offers us freely the gift of salvation. Have you ever noticed the best things in life are free? People reject and condemn that gift which only God our Father can give.

Have you ever felt the prick of a thorn in your flesh? I have and I realize what Jesus did for me

even more. He not only felt one but many, a crown of thorns was placed upon His head. He was beaten and His side was pierced as He was nailed to the cross for you and me. Can you feel the pain He must of felt, yet He was willing to take our sin upon Him, which no other person could ever do. You see parents, we have a great responsibility to teach our children about the truths of the word of God. We will all be accountable before God for this as well as our lives. We must set up priorities in life, and follow them. What is the most important force or person to me and you in life? Is it God, money, cars, friends, or drink? Each one will answer to God Almighty some day soon for this also. How we live our life before our children will affect them in how they live their life! They will pattern themselves after their Mom and Dad believe it or not it is true. I thank God for my Christian parents and for the help they have been to me. I have seen their lifestyle patterned after God.

We have been all given a choice as to where we will spend eternity, in Heaven with God or Hell without God! It is up to us as individuals to either serve God or Satan, we cannot serve both. "It is not God's will that any should perish, but that all

HHSS Redmen get set for football season

Training sessions bring home the finer points of the game

Linemen practise quick starts

Good turnout for HHSS soccer squad

Soccer players at Haliburton Highlands Secondary School are busy preparing for a six game season that gets underway this Thursday in Peterborough.

A strong field of hopefuls turned out for practices, and both the junior and senior squads from the local high school are expected to be competitive in the Kawartha West league.

Members of the senior team include Andrew Shapiera, Jeff Smith, Dave Storey, Fred Agnew, Bill Stromberg, Scott Milburn, Khoam

Pham, Eddie Dupe, Mitch Abel, Kevin Sicard, Scooter Burgess, Dwayne Warburton, Paul Milne, Gary Vanderstarren, Steve Medley, Tim Wood, John Teljeur and Chris Laporte.

The Junior squad will include Darrell Goodall, Barry Scully, Eoin Ross, Paul Kuno, Gord Wood, Kevin Barry, Bill Willeme, Dennis McKee, Ray Gervais, Troy Barry, Dave Hodgins, Andre

Barry, Dave Hodgins, Andrew Milne and Jeff Popple. The season opens Thurs-

day against I.E. Weldon secondary school.

On Wednesday, September 25 the teams will travel to Lindsay to compete against LCVI.

The following Wednesday, September 28, they'll travel to Fenelon Falls to meet teams from that town's high school.

First home game for the HHSS teams is Wednesday, October 5 when LCVI will meet Haliburton for the second time.

On Wednesday, October 12 Haliburton will be at home

for a return match against Fenelon Falls, and on Tuesday, October 18, Weldon will travel to HHSS for the final match of the regular season.

Second and third place teams will clash in the Kawartha West playoff on Friday, October 21, with the winner meeting the first place team for the Kawartha West title on Wednesday, October 26.

The following Tuesday, November 1 the winning team will vie for the Kawartha title, and the winner of that match will go on to the

Please turn to Page 7

Junior squad could win title, coach thinks

Prospects appear good for Haliburton high school's Junior Redmen football team, but the senior team will be up against some tough competition this season.

That's the assessment of head coach Gary Brohman, who last week was putting some 62 players through training sessions in preparation for the season which opens this Friday.

The senior team will be anchored by Greg Pearson at the quarterback spot, who has moved up from junior this year.

"We're lacking depth at offensive running back and defensive backs" Brohman said. "Our strength should be in offensive and defensive lines."

Returning players on the senior team include Brett Foster, Keith Foster, Terry Hobden, Glen Clark, Lyle Coughlan, Craig Burke, Neil Madill, Todd Fyfe, Harold Cowen, Ken Coumbs, Steve Smith, Terry Sicard, Danny Coughlan, Wade Woodward, Sean Allore, Doug Schell, Rob McLeod, Paul Vucksic, Tim Beaver and Jeff Bain.

Rookies trying for a spot on the senior team include Kevin Smith, Bill Whittaker, John Dillon, Dave Chambers, Brad Chambers, Erick Heyn and Falk Flugel.

Two players who could make a big difference for the senior Redmen are Rick Choy and Blaine Culley. Both are trying to get into university, but may return to upgrade marks.

Brohman said he, assistant coaches Bob Collier and John Fitzgerald, and the players on the senior team, "are just going into it with a

positive attitude and hoping things will gel quickly for us."

Last year the senior Redmen finished third in the five team Kawartha West league.

The Junior team will be bolstered by 13 players who gained experience last year, including Trevor Powers at quarterback, Mike MacNaull, Mike, Blake and Paul Allore "who had excellent seasons last year" in the offensive backfield, Brohman said.

Returning linemen include Peter Allore, Glen Hall, Rob Mifflin, Sandy Sutherland, Ron MacDonald and Alex Little.

Returning linebackers and defensive players include Rob Crowe and Ian Cooper.

Rookies trying out for the squad include Cliff Brydon, Andrew Burke, Derek Little, Danny Johnson, Jeff Chambers, Craig Crowe, Brad Archer, John Ballantyne, Chris Carl, Mark Miscio, Lenny Johnson, John Burton, Tom McLeod, Bruce Weedon, Cory McKnight and Dave Hodgins.

Brohman is optimistic about the Junior team's chances.

"With the excellent potential of the rookies and the knowledge of the returning Juniors we should have a crack at the Kawartha title" he said.

Last year marked the first time players have been split into junior and senior squads, and the system is

expected to continue.

"It definitely hurts the senior program" Brohman said, noting that at least five of the current crop of juniors could gain starting positions on the senior team.

"But our feeling is we should give the junior kids a chance at winning a championship."

Brohman says his goals for the season are to win a Kawartha title with the Juniors and make the playoffs with the seniors.

The teams will get their first test this Friday at Haliburton against squads from I.E. Weldon Secondary School, with a 2 p.m. start for the seniors and a 4 p.m. start

Please turn to Page 7

Seniors expected to have strong lines

Huskies look promising at first camp

Haliburton's Junior C hockey club is off to a solid start this year, following a disappointing season in which the club changed coaches several times and won only two games.

There were indications that the team might fold, but when Darrell Stamp offered his services as coach for the 1983-84 season, club supporters decided to ice a team.

Stamp sent letters out to prospective players this summer, and when training camp opened Monday night, some 25 hopefuls were on hand.

It's pretty difficult to say at this point what kind of a team we will have" Stamp said Tuesday.

Goaltending and defense prospects appear good, "but we're less than adequate up front for three lines."

Several eligible local players are trying to gain places on Junior B teams in the surrounding area, and "if those fellows return, I think we'll have a

very good team" Stamp said.

"If not, then we'll struggle, but I'm hopeful we'll get some of those kids back."

Kelly Mitchell, Kevin Warburton and Jeff Stamp are three potential Huskies who are trying to play in a higher league, but if they are unsuccessful at training camp, they may return to the Huskies, which would give the team a boost.

"My hope was that we could be competitive, and if we can get the players that we need, we will be" Stamp said.

The Huskies will get their first test September 24 in an exhibition game against Huntsville, and will play Huntsville in another exhibition match September 30.

The season opener is October 7 in Huntsville, with the first home game slated for October 8 at the Dysart arena, also against Huntsville.

**ON
SEPTEMBER 18,
RUN, WALK, JOG, STROLL,
RIDE, WHEEL, ORGANIZE,

BLUEPRINT FOR WASTE MANAGEMENT

The Ontario Ministry of the Environment has developed a comprehensive proposal of new programs, controls and regulations for the better management of eight million tons of solid waste and the 60 million tons of liquid industrial waste generated in Ontario each year.

Information meetings to explain this Blueprint for Waste Management have already been held.

Now interested persons or groups will be given the opportunity to make written or oral presentations on the subject at a series of public forums being held throughout Ontario.

PUBLIC FORUM

Friday, September 23

Dixie Lee team drop semi final

by JIM MILNE

The Dixie Lee soccer team's spirits were somewhat deflated by a 6-1 semi-final loss to Gravenhurst last Sunday. Gravenhurst, which finished first in the standings after regular league play, will now meet Muskoka Sun, which finished second in the final game of the Muskoka District Soccer Association.

In last Sunday's game

Dixie Lee fell behind by two goals in the first half before Paul Milne restored confidence by scoring on a good individual effort. He retained possession of the ball after a defender's tackle and went in close to beat the goalie cleanly. Two strange goals by Gravenhurst early in the second half, however, stopped the local team's rally and Gravenhurst rode their momentum for two more goals.

Considering the whole season, the Dixie Lee team acquired the strength to beat any team in the league except the top two who are now playing for the championship.

for the juniors.

Other games: Friday, September 23, Haliburton at Brock; Friday, September 30, Fenelon Falls at Haliburton; Friday, October 7, a bye; Friday, October 18, Haliburton at LCVI; Friday, October 20, Kawartha West semi finals, 1st vs. 4th, 2nd vs. 3rd; Thursday, October 27, Kawartha West title; Friday, November 4, Kawartha District final; Friday, November 11, COSSA final.

HHSS soccer

from page 6

COSSA final on Saturday, November 5.

The HHSS teams will get some extra practice this Sunday when they take on members of the Haliburton Dixie Lee squad in an exhibition match. A collection will be taken at the game for the Terry Fox cancer fund.

Sunday, September 18 is set aside for Terry Fox Cancer Fund events and the Haliburton Soccer Association has organized a fund raising game at 2 p.m. at the Haliburton High School. Some older players on the Dixie Lee team will play the Haliburton High School Seniors. Dixie Lee will field a full team of 14 or more players and expect the High School will also. Players will make a donation to the Cancer fund or have pledges of donations. Mr. Tony Abela of Kinmount, a qualified referee will officiate. The Dixie Lee club hope to give the high school team a good game and raise some money to complement the efforts of the Terry Fox runners going that same day.

Kayakers and canoeists from several provinces will be in Minden next weekend for the provincial championships, which will be held Sunday, September 24.

Home repair workshop set

Many simple household repairs do not seem all that small when you have to pay someone else to do the work. You can learn to fix many things yourself, even if you are not the mechanical type. During October, six workshops entitled "Simple Home Repairs" are being held throughout Haliburton, Victoria and Peterborough Counties. These are under the sponsorship of the Rural Organizations and Services Branch of the Ontario Ministry of Agriculture and Food and several area groups. Workshop participants will have an opportunity to learn through practice, 12 simple plumbing and electrical repairs. As well, information will be available on basic tool requirements, proper safety procedures and trouble shooting around the home.

Workshops are being planned for Haliburton Village, October 6 from 9:00-12:00 a.m.; Minden, October 6 from 2:00-5:00 p.m.; Burnt River, October 11 from 1:00-4:00 p.m. and 7:00-10:00 p.m., and Lindsay, October 12 from 1:00-4:00 and 7:00-10:00 p.m. In Peterborough, the sessions

will run from 1:00-4:00 p.m. and 7:00-10:00 p.m. on October 18; in Lakefield on October 19 and Cavan on October 16.

Workshops will be limited to 30 participants per session, and the courses will be filled by preregistration only. Fewer than 20 applicants will cause cancellation of a session. Exact workshop locations will be confirmed when you register.

There is no charge for the course, however a nominal fee will be collected at the workshop from each participant to offset any hall rental charges.

All repair instructions and

a general guide to simple home repairs will be available to each participant.

Please register for the location of your choice by calling either the Lindsay or Peterborough office of the Ontario Ministry of Agriculture and Food by September 26, 1983.

Volunteers are also required to help supervise the work stations. You may assist at one or several sessions, either afternoon or evening.

For further information, contact Christine Dukelow, Rural Organizations Specialist, Lindsay 324-6125.

Stanhope council minutes

Stanhope Township council met August 10, 1983.

Members present included reeve, Harry Davis; deputy reeve, Elgin Stouffer; councillors, Dale MacDonald, Elvin Johnson and Ann Barker. Also in attendance were the following individuals and delegations: James Moore, By-Law Officer; John Barclay re: Recreation Committee; Bev. Robinson, Boshkung Lake Property Owners Association re: proposed new zoning by-law; Harold Barjarow, Road Superintendent; Jim Hicks and Brad Hicks re: Ski Slalom proposal and Alex Stevenson, interested citizen.

Councillor Ann Barker declared a conflict of interest on item #26 - general accounts payable re: 1983 Fun Day purchases and subsequently refrained from discussion or voting on this matter.

Minutes of the regular meeting held July 13, 1983 were adopted as circulated. Council approved of severance application #H 121/83 conditional upon, the severed lot forming part of property presently owned by the applicant. No development occurring on the severed parcel, and grantee recognizing access rights held by anyone over the severed parcel. Council did not approve of severance application #H127/83 as the severed parcel is not in compliance with the provisions of By-Law 77-15. However, council suggested the application be revised to be in compliance with By-Law 77-15.

Council approved for payment three Ontario Home Renewal Program applications for the total amount of \$13,250, as recommended by the Ontario Home Renewal Committee.

Council had no objection on the funds of the Twelve Mile Lake Cemetery Vault Committee being transferred to the Minden Cemetery Board account and the reeve and clerk of Anson, Hindon and Minden becoming signing authorities for the expending of this money on future capital repairs of the Twelve Mile Cemetery Vault.

Council acknowledged receipt of the Community Centres Board minutes of a meeting held July 20, 1983.

Council recommended to the Community Centres Board that the board invite Mrs. Nellie Thompson to the next regular board meeting for discussion on alleged problems with respect to janitorial services.

Council acknowledged receipt of copies of the Recreation Committee meeting minutes dated June 22, 1983 and July 27, 1983 respectively.

The Recreation Committee will be asked to consider preparing a master plan of the recreational property on part lot 15 concession 4 showing existing facilities and also the location of any proposed future facilities.

Council appointed Mrs. Brenda McKinlay a member of the Stanhope Recreation Committee from August 10, 1983 to December 31, 1985 inclusive.

Council approved in principle a proposal Mr. Brad Hicks to construct a ski slalom course on Saskatchewan Lake as outlined in a plan as submitted. This approval in principle granted conditional upon conditions in letter from the Ministry of Natural Resources dated July 21, 1983 being met and that the majority of all property owners within one mile of the proposed site are in agreement.

Council will make application to the Ministry of Transportation and Communications for 1983 subsidy monies on expenditures which may occur on the preparation of a bridge study and engineering report which would contain proposed improvements on the Bucksbridge Bridge.

Stanhope will purchase one IBM Typewriter as per quotation - IBM Model 6705, at \$968.

Council approved general accounts totalling \$22,647.17; July Welfare totalling \$4,685.95 and Road Voucher #7 totalling \$14,909.45.

By-Laws 83-22 to name a municipal highway and 83-23 to amend By-Law 77-13 were passed.

The next regular meeting of council will be held Wednesday, September 14, 1983 at 8:30 a.m.

Seniors to get grant applications

Over half a million Ontario senior citizens' households will receive 1983 property tax grant application forms, the Province's Ministry of Revenue has announced. Applications will be mailed September 2 to seniors who have in the past been eligible for the grant and have paid either property tax or rent on eligible properties during 1983.

An interim installment, equal to one-half of the \$500

per household maximum property tax grant, was mailed to seniors last May. Once completed applications have been received and processed by Revenue, the Ministry will begin mailing of final installment cheques to eligible seniors in early November.

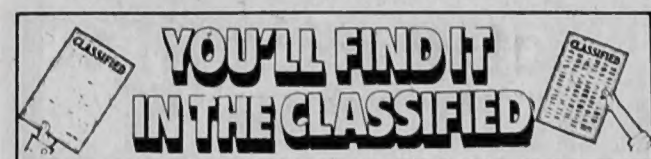

Anyone who turned 65 before July 1 will also receive a property tax grant application in September.

Trent Severn News

The Trent-Severn Waterway reservoirs in Peterborough and Haliburton County have declined 4.7% over the past week, and stood at 49% on September 6, 1983. Many of the reservoir lake dams are already set with their proper number of "winter" logs - that is the proper number of logs which are normally left in a dam over winter. This number varies from zero to five logs, depending on the dam, but is usually the same

every year.

After having scattered heavy rainfall during the last week of August, September has returned to hot, dry conditions. The surplus water on the Kawartha Lakes is gone, with all the lakes dropping well into their navigation ranges, and the Otonabee River outflow from the Kawartha's again being reduced operational minimum. Increased flows were required from the reservoirs once again.

Companions wanted

Introduce your oil furnace to add-on electric heat and introduce yourself to substantial oil savings.

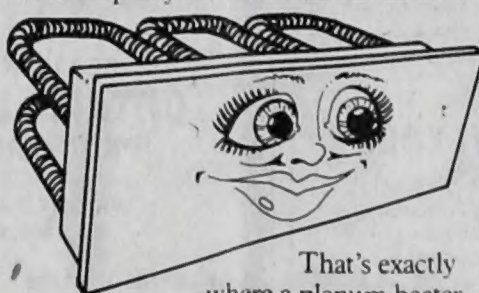

Kissing that old flame goodbye isn't the only way to reduce your oil consumption. If that oil furnace is still in good shape, you can take advantage of converting to a dual energy heating system.

Instead of replacing your furnace, introduce it to an electric plenum heater, heat pump, electric boiler or baseboard heaters. These dual energy systems let oil and electricity work in harmony to heat your home more efficiently and more economically. Operation is simple. The electric system works until the coldest winter days, then your oil furnace automatically takes over.

In most cases, add-on electric heat will reduce oil consumption by up to 75%. Even more in some cases. And a reduction of that magnitude can make a dramatic difference to the total cost of heating your home.

The Plenum Heater

The "plenum" is the warm air chamber at the top of your forced air oil furnace.

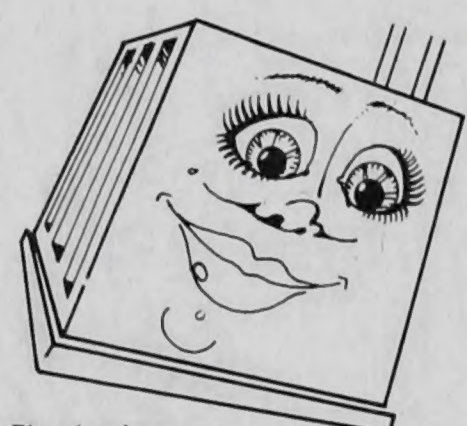

That's exactly where a plenum heater is installed. So that on most days, the fan circulates more economical, electrically generated heat.

The Heat Pump

Even on cold winter nights, there is still warmth in the outside air. Just like a

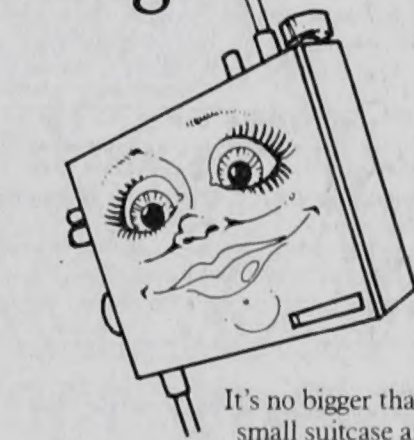

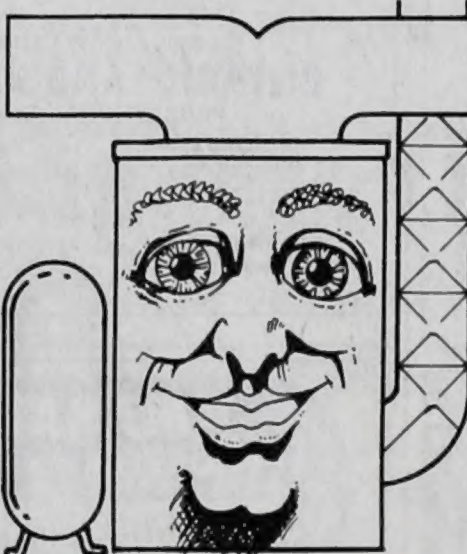

refrigerator, the heat pump extracts that warmth and pumps it into your home.

Plus there's an added bonus. In the summer, your heat pump works in reverse and becomes a central air conditioner.

The Electric Boiler

If you have an oil fueled hot water heating system, there's another alternative. You simply add an electric boiler.

It's no bigger than a small suitcase and can be easily installed.

Baseboard Heaters

Electric baseboards can also be used as a dual energy system. They're installed in individual rooms to quietly handle most of the heating load.

The Time is Right

Today is definitely the time to investigate the savings of introducing your oil furnace to an add-on electric system. The COSP (Canada Oil Substitution Program) grant will pay for half of the installed cost or \$800, whichever is less, on all systems where oil consumption is reduced by 50% or more.

To find out more about the benefits of a dual energy system, contact your local Hydro or electric heating contractor today and ask them about special assistance that could lead to even greater savings. And tell your furnace to get ready for a warm and meaningful relationship this winter.

Go Electric

Happy Gang News

Ivy arrived Monday morning with the Hyland Crest bus to take us to Jim and Doris Cooper's for a picnic. When we got there Mr. Pitts brought his boat over, we went for a ride in it and Jim took us up in his airplane. It was a very hot day but fun was had by all. Thanks Doris, Jim and Mr. Pitts for the delightful day.

Krista Rydman was on hand Tuesday for a game of bingo, Ray Smith called the numbers and prizes were handed out to the lucky winners.

Wednesday morning we climbed on board the bus again and off we were to

Cullen Gardens in Whitby, where they have replica buildings in miniature form and lots of pretty flowers. We were delighted to see a wedding, a house on fire, a lovely waterfall, Whitby station with a train running by, and a cottage on a lake with a motor boat circling the lake. It was a really interesting day but again very hot.

Thursday morning we gathered together for Fun and Fitness, tired from our trips but refreshed with new places and the lovely scenery we saw. In the afternoon Rev. John Phillips held a communion service in the

lounge.

Friday Rev. John James held devotions and Jan Shipley accompanied him playing the piano for the hymns.

Tuesday, September 6, we held a meeting to discuss this year's camping trip. Ivy wrote down our requests for what to pack for meals and the activities we could do when we got there. Then it was time to pack.

Wednesday morning, with excitement in the air, we were ready and off to the South Lake Trailer Park. Jane and Amy Rosenberg, Brian and Elsie Henderson and Ivy drove Hazel Parish, Ethel Lowes, John Sisson, Jack Henderson, Jack Pollard, Ray Smith, Alice Hartle and Harold McKelvey. When we arrived it was noon and we started preparing lunch. After a quiet lunch served at picnic tables we were ready to set up camp. We had tree trailers belonging to Brian and Elsie, Barb and Doug Carpenter and Ivy and Cleve Shaw, and a tent also of Brian and Elsie's. After we organized the camp the fun started, with there being many activities such as pool, shuffleboard and pingpong. When we returned to camp we had a delicious dinner of

steak, cauliflower, baked potatoes and fresh fruit. We ended the evening sitting around the campfire toasting marshmallows, singing and telling stories.

With Thursday being such a beautiful day we went off a boat ride around the lake and when we got back to our

surprise we had company, Ron Pearson, Ralph Pasquino and Norman Titus came with Sheila Elston. They had dinner with us and before we knew it we had more company! Shirley Rydman, Ellen, Bob, Dean and Todd Fyfe, Bonnie Bonfield and Nancy Picard with her

accordian. The music was great and we had a birthday party with cake and ice cream. Jack Pollard accompanied Nancy with his harmonica. A good time was had by all. Friday we packed up and said goodbye to another year of camping.

Senior League

by BERT HARRISON

Well, the holidays are over and it's back to school once more to get the classes all in place, must be quite a chore.

In our chapel service Sunday evening the scripture reading was from the fifth chapter of John. All our faithfuls came again, the service to carry on.

We have Doris back again after a two week holiday. Lindsay faithfully takes over when Doris is away. We hear through the grapevine, (we hope it isn't just a rumor) that we will have Mary Oliver back again in two weeks or sooner. She has a birthday coming up. "Please come back we pray; how can we congratulate you when you

are so far away."

Tuesday morning Rev. George Elliot of Minden Anglican church, conducted an impressive communion service in the chapel this lovely September day. Agnes and Barbara came again to sing and play.

Tuesday noon Doris said if you men will pull up your socks and the ladies take a powder puff out of your powder box and you will promise to sit still and not make a fuss, we will take you for a ride in the Hyland bus. So about one o'clock we took off down through Norland and Cobocok to see the Fencelon locks. It was a lovely drive and when it was over, the girls brought us safely back

and all of us were sober. Tuesday night our players came from Grass Lake shore, entertained us royally, and still we asked for more. Cathy was at the piano keys and Earl on the fiddle; a good time was had by all. Take your partners by the hand and promenade the hall.

Congratulations to Rev. and Mrs. Westhaver on their recent marriage. They are holidaying by the seashore.

THIS TOO WILL PASS

This too will pass, I say to myself
When I feel I have too much to bear,
This too will pass and I'll carry on,
I will not succumb to despair.
I'll marshal my forces of spirit and mind,
Forge ahead, leaving thoughts of defeat far behind,
The hard times will pass and I will survive
To welcome to-morrow and be glad I'm alive.
Joy M. Ballard
Wilberforce, Ont.

autumn

The colour deepens on the distant hillside
The sky ablaze with lavender and gold,
Now from the lake the silver mist is rising,
September, and the year is growing old.

No swallows skimming swiftly o'er the water,
And suddenly the song birds disappear,
Gone is the joyous summer laughter,
It's autumn and the lonely time of year.

Against the hazy hills in flaming glory

Please turn to Page 11

Letters

from page 5

should be saved." Even in Noah's day we read that there were people who laughed and scorned the work of God. Because they refused to believe, so God destroyed them with a flood. Is this what you people want today? "The fool hath said in his heart, there is no God." How many fools do we have in the world today? All the attractions, money, popularity that this world offers us will never compare to the love, peace and freedom that God gives us. There is a void within each one of us that only Jesus can satisfy and fill with His holy spirit.

I thank God for pastors who will stand up against sin and immorality in our country. We need more God fearing men and women who will stand against wrong issues in our government and our community also. We have many people who attend churches but they are not saved, even pastors. God knows our heart, man looketh on the outward appearance, but God looks on the heart, so he knows who is a Christian and who is not! We need to put aside traditions and doctrine of denominations and be what God wants us to be. Many are in Hell today and many more will go there unless they wake up and put their faith in God to save them.

Suppose you knew you would die in 30 minutes, what would you do? Do you know where you would spend eternity? We can know when we ask Him into our heart. You see people, going to church or any affiliation to churches will not get us into Heaven, the only ark of safety is Jesus. "Only on life I'll soon be past: only what's done for Christ will last." "Every knee shall bow and every tongue confess that Jesus is Lord." Is he your lord? I am thankful I have made Him mine and I would not trade Him for anything in this world. Will you acknowledge him as lord now or on judgement day, the choice is yours? God loves you and is waiting for you to call on Him today!

What is aggression? Aggression is a forceful way of indicating feelings such as frustration, anger or despair.

Each one of us have these feelings from time to time and your pre schooler is no exception. Anger is a healthy and natural emotion that a child experiences when he is expressing what he feels are his rights. Guilt is another emotion that a child may feel after he has been physically aggressive and these feelings can be amplified if you as a parent are your child's prime target. The Ministry of Community and Social Ser-

vices puts out various pamphlets on such subjects as "Aggression is Natural, Encouraging Independence, and How They Grow?" These brochures look at problems like aggression, explain about the feeling and offer suggestions as to how to redirect the behaviour, and overcome the problem. They also contain lists of books relating to specific topics for you as a parent, or for your child.

For further information about these pamphlets, please drop in to our office at the Drag River Municipal

Building in Haliburton or call us at 457-2733. Our office hours are 10:00 a.m. until 4:00 p.m., Monday through Friday. And remember, you won't know the answer until you ask the question.

The Ex-Abortionist vs. The Abortionist

Dr. BERNARD NATHANSON, practising gynecologist-obstetrician and fetologist, was co-founder of the National Association for the Repeal of Abortion Laws (NARAL) in the United States, and director of the largest abortion clinic in the world in New York City. By his own admission, he has presided over more than 70,000 abortions. In 1973, he became director of a fetology unit. His best seller "Aborting America" takes the reader inside the pro abortion movement and its political maneuverings, presenting a detailed account of the machinery of the massive abortion industry.

CANADA AM

Excerpts From The Norm Perry Interview On CTV

Norm Perry: At the time when you were doing abortions what were your arguments — because there were people then as there are now, who are opposed to abortion — and what did you say to them when they questioned your aborting women?

Dr. Nathanson: Most of the arguments against abortion in those days (1970) were based solely on moral and religious conviction. I do not have any religious affiliation or convictions. For me it was purely a scientific matter. Here was a woman who had a pregnancy she didn't want . . . and there was no countervailing moral force there, namely we did not understand the nature and the humanity of the fetus as we do now.

Norm Perry: Why did you change your mind? What happened to you?

Dr. Nathanson: It was the result of the years I spent from 1973 to 1977, working and being the Director of a Fetology unit. The science of Fetology was then emerging. All the new technology that we had was beginning to be developed and used in our unit such as: Ultra Sound and Electronic Heart Monitoring. We were then for the first time in clear contact with that E.T. as it were.

And for the first time those of us in the field could directly communicate with that person and identify it.

The science of fetology has exploded since then. And it has finally culminated in a growing realization that the fetus

is entirely similar and identical to any of us; that he is a member of the human community.

Now it has come to the point where there is a terrible paradox developing in all hospitals.

On one floor were are saving the fetus, diagnosing its illness, and on the next floor down there are those of us who are destroying that same fetus. This paradox is becoming intolerable.

Norm Perry: Dr. Morgentaler says it is arbitrary when life begins. I gather you would agree with that.

Dr. Nathanson: No. It is not arbitrary at all. It is scientifically validated and confirmable that life begins at conception.

Norm Perry: The point Dr. Morgentaler makes is that which makes humans human and differentiates us from animals is the neo-cortex.

Dr. Nathanson: No. What differentiates us from animals is the fact that we ordinarily do not destroy each other casually.

Norm Perry: A fifteen year old girl under the responsibility of the CAS — her parents, her foster parents and the girl herself — wanted to have an abortion because she claimed to have been raped. Dr. Morgentaler provided her with an abortion free-of-charge. Would you have allowed an abortion?

Dr. Nathanson: No, I would not. Dr. Morgentaler is of course not a fetologist. He is an abortionist. I must tell you that abortionists are to physicians what bounty hunters are to policemen. He cannot see the other child that is involved here. But to those of us who do fetology understand now that in that particular case there are two children involved. One, who is a fifteen year old. And one, who is a prisoner; who is literally invisible.

Norm Perry: You make no exceptions then?

Dr. Nathanson: Unless that girl's physical life was in imminent jeopardy. Then I would make an exception. Everyone is entitled to defend their life.

Dr. HENRY MORGENTALER'S PRACTICE consists of running an illegal abortion clinic in Montreal contrary to the Criminal Code of Canada. He now actively promotes setting up a chain of abortion clinics across Canada commencing in Toronto and Winnipeg. In 1976, Morgentaler's license was suspended for one year by the Disciplinary Committee of the Physicians of Quebec because: "his attitude is primarily directed to protecting his fees; and his failure to perform necessary tests and follow-up. These factors reveal a medical practice which . . . cannot [be] reconciled with the practice of good medicine." Morgentaler applied money saving methods of re-using disposable vacutettes contaminated by use in previous abortions, which medical authorities state can lead to the transmission of Hepatitis, VD, Herpes II from patient to patient.

CHERINGTON

Excerpts From The Morgentaler-Nathanson Debate On CHCH TV Hamilton

Morgentaler: You are an expert on fetology. You know after eight weeks you don't even see the embryo.

Nathanson: With Ultra Sound we can see it very easily!

Morgentaler: so you don't believe that it is inconvenient life?

Nathanson: A couple has no right to arbitrarily destroy another human being regardless of how inconvenient that life may be. Being an unwanted child shouldn't be a capital offence!

Nathanson: Whether you call it menstrual extraction, abortion, saline or what ever. It is the destruction of an identifiable human life. These fetuses aren't anyone's property. No more than slave holders could argue: "look you people in the North, you may not like the way we treat our slaves, but it is our choice. It is our 'freedom of choice'. Don't try to impose your beliefs on what we think is necessary in the South". And if that situation had prevailed and if that 'freedom of choice' had remained we would still have slavery in the United States.

Morgentaler: Dr. Nathanson does not respect the decision of the couple or a woman, who is having an abortion.

Nathanson: If there were nothing — just a piece of meat, an appendix — in the uterus, I agree. But unfortunately, it is an identifiable human being. No one speaks for it in these abortions.

Cherington: Are you trying to force your opinions on the world? (repeating a phone-caller).

Nathanson: My opinions are based on scientific knowledge of the fetus. We doctors have seen the fetus. We understand it. As women more and more during their pregnancies are being subjected to Ultra Sound examinations and as they are seeing that fetus of theirs on the screen, more and more women will perceive what I and other fetologists know that that is a human being in there.

Nathanson: Every child today is theoretically an abortion survivor. Why is it that the figures for child abuse have sky rocketed within the last five years when every child is wanted? I don't understand that social phenomena.

Morgentaler: We live in a violent society.

Nathanson: Ah, we sure do, when people are setting up abortion clinics . . . more violence.

MORGENTALER'S ABORTION CLINIC INCOME

(conservative estimate)

Charges per abortion	=	\$ 225
"typical" business day		
17 abortions x \$225	=	\$3,825

Morgentaler: What about menstrual extraction at two weeks or three weeks?

THE FOLLOWING INFORMATION IS BASED ON EITHER COURT RECORDS, TESTIMONY UNDER OATH, OR OTHER DOCUMENTATION THAT CAN BE SUBSTANTIATED ABSOLUTELY.

I. MORGENTALER'S PAST

1. Morgentaler is a signatory to the Humanist Manifesto II which states, "we can discover no divine purpose or providence for the human species...No deity will save us, we must save ourselves." and which affirms the individual's right to abortion, euthanasia, suicide and sexual permissiveness.
2. In November 1967, in an article in the "Humanist in Canada", Morgentaler wrote "It is legitimate to fight superstition, ignorance and the bad influence that the Churches are having; this should be done preferably on selected issues such as abortion law reform..."
3. In 1968-69, Morgentaler opened an illegal abortion clinic in Montreal.
4. In 1970, Morgentaler was arrested for performing an illegal abortion, but because of legal manoeuvres, did not come to trial before his second arrest in 1973.
5. In 1972 Morgentaler ran in the federal election, as an Independent N.D.P., on a platform which included legalized prostitution and abortion on demand. He lost his deposit.
6. In 1973, Morgentaler was arrested for the second time for performing illegal abortions.

FREEDOM OF CHOICE ENDS WHERE THE RIGHTS OF OTHERS BEGIN

Help stop this violation of human rights. Make sure your name is on the signature ad. People Against Abortion "Clinics" (P.A.A.C.) is currently gathering thousands of signatures in support of the following declaration:

This is part of a province-wide signature ad campaign to be published by individual local papers.

All names from the Haliburton-Bancroft area will be printed in full page ads, in the Haliburton County Echo & Bancroft Times as follows:

Doe, Mary C., Haliburton

Doe, John W., Bancroft

We ask for a contribution of \$2.00 per name to help cover the cost of this huge campaign. However, the names are more important than the money. Contribute what you can and please send your names immediately to:

P.A.A.C.

R.R.1, Highland Grove, Ontario K0L 2A0

Anyone 16 yrs. and over may sign the ad. Please do this now! All names must be received by Oct. 15th, 1983.

10. If you faint in the day of adversity, your strength is small. 11. Deliver those who are drawn away to death, and those who totter to the slaughter hold back (from their doom). 12. If you (profess ignorance and) say, Behold, we did not know this, does not He who weighs and ponders the hearts perceive and consider it? And He who guards your life, does not He know it? And shall not He render to (you and) every man according to his works? Amplified Bible. Proverbs 24: 10, 11 and 12.

We Choose Life

The undersigned believe that each human life deserves the utmost respect from the time of conception until natural death.

We are convinced that human problems must be solved by loving and helping not by killing.

Kinmount Korner

By MILLIE MOSS
Steven Fountain has returned home to Oshawa for school following a summer holiday with his grandparents, Clara and Ambrose Watson. Holiday weekend guests at the Watson home included Bonnie and Rhonda Scarlett, Mike LaChance, Charlene Fountain and Bruce Hall, all of Oshawa.

Recent visitors to the home of Virginia and Bill Barkwell were Dot and Terry Murphy, Lisa Sean and Terra of Burlington. The Murphys then travelled to Nova Scotia, back to Kinmount and then on home to Burlington. Warren, Linda, Eric and baby Alex Simms, also of Burlington, were guests of the Barkwells for a week. Then Gregory, Brett, Mary, Karen and Mark Simms arrived from Burlington and spent five days. Another son, Alfie Simms was also a welcome guest. It's nice to be able to report that Bill Barkwell has a clean bill of health.

At the Jean and Bob Hollobon homestead, weekend visitors were Amie and Fred Doresett of Pickering, son Paul and Rolanda Moran of Whitby.

At the Bill and Win Wilsons, Joan, Harold, Jennifer and Mike Mills and Don Fraser, all of Pickering, were visitors for the holiday weekend. Bill and Win also travelled with Ruth, Alf, Sarah and Meghan Brady of Kispix Valley, B.C. to Kitchener, London and Windsor, visiting with friends and relatives and on Friday the Bradys left for home out west.

Now, at Joyce and Jack Hill's J.J. Ranch, guests included granddaughter Lindsay Cahill, Beverley and Pat Molloy, Monica Alphonso and grandma Hills, all of Scarborough.

Mrs. Irene Auston of Toronto was a guest of her sister Cora Jackson in Kinmount. Granddaughter Corine Harker, her dad and a friend also visited from Toronto.

Verna and Jerry Crego were busy people also, recently, with welcome guests: Paul, Sarah and Allison Crego of Lindsay, Lynn, Mike and Derek Allen of Cameron, Donna Crego from Lindsay, Grace and Orville Pearce of Stouffville.

Congratulations to Allan Brown on his \$90 win in the Kinmount Legion 50/50 draw, Saturday, September 3.

Results of the nine tables of euchre players at St. James Hall on Tuesday, September 6 were: ladies' high: Nora Swinson; ladies' low: Ruby Holbrook; men's high: Esther Graham; men's low: Norma Hamilton; lone hands: Esther Graham.

There are many reports of dry wells in the area.

A gentleman named Ed who was a regular helper at the Kirkfield Lions Bingo suffered a severe heart attack following the games Tuesday, August 30 and as of September 6 was still in the intensive care unit in hospital. There sure was a host of signatures on the card that was sent around the room and I'm sure Ed will appreciate it later. Get well soon Ed, we all miss you.

Vi and Albert Crego travelled to Victoria, B.C. on July 29 to visit with daughter and son-in-law, Shirley and Roger White for four days. A camping trip on Quadra Island followed for another four days. They then came back to Pacific Playgrounds at Campbell River and stayed there for six days. They were back home for one day and then off for sunny shores for a week, then on to Salt Spring Island by ferry. Albert was very lucky (or is it skill?) at his fishing. He caught a lot of salmon, the largest weighing in at 20 pounds. The weather stayed wonderful and they had a beautiful time. They headed to Vancouver on Saturday, August 27 and stayed with grandchildren Arlene and Jack until the 29th, and then came home by air to find upon their return that the 'coons had really enjoyed their corn.

I enjoyed a phone chat with Ida Young one day last week. She will be laid up for some further six weeks or so. That "fall" she had recently with a logging truck did a little more damage that was realized at the time and now she is sporting a 12 pound cast for a broken bone in the heel. At this time she would like to thank everyone for the phone calls, wall to wall cards, flowers, gifts and just plain caring and asking about her. Ida was a very lucky lady and we're glad to have her still with us.

Happy birthday to Doris Barkwell on Saturday, September 10. I was sorry to hear that Bruce Bowman hurt his hands in a pulley at work but is coming along well at last report.

Joe Bowman would like to thank the person (unknown) who found and returned his wallet at the Fair dance Saturday, September 3. It gives one back their faith in human nature.

Remember our shut-ins with a card or call. Stay well and happy and be here to read the Echo next week. I'm at 488-2353.

Leaves are beginning to turn red and yellow, and in a week or so autumn will turn the Highlands into a wonderland of colour. Watch for the award winning Fall Tour supplement in next week's issue.

Carnarvon News

The September meeting of the U.C.L. was a delightful affair. It began with a pot-luck luncheon. An honoured guest was Thea Bradsm, who is president of the Lindsay Presbyterian. Years ago, she and her husband came from Holland and she gave an interesting talk of their adventures.

The theme of the meeting was service and a laugh-provoking skit was staged by Mary Stevenson, Muriel Harrison and Mabel Russell. A good financial report was submitted.

Mr. and Mrs. Wayne Toye and family are spending a few days in Niagara Falls.

Mr. and Mrs. Jack

Barnhart attended a wedding in Peterborough Saturday night.

Ross Harrison and Tom Henderson have been re-doing the church doors.

Mrs. Annie Voiccy celebrated her 85th birthday on Saturday with many friends calling to offer congratulations.

Wilberforce News

Mrs. Verlene Sinclair is a Lindsay resident who owns a cottage at Lake Lorraine. It is thought that her cottage was the first to be built at this area so she has been a summer visitor for many years. Mrs. Sinclair was surprised and amused to read in last week's column that on discovering a fire burning on the shores of Lake Lorraine she became excited and failed to give proper instructions about the location when phoning the fire hall. Mrs Sinclair maintains that although concerned she remained calm through the whole procedure of driving to Findlay's Store and phoning in the directions.

Probably one of the new recruits of the Volunteer Firemen misunderstood her wording. At any rate both Mrs. Sinclair and the fireman who took the message were playing the part of good citizens. The reporting of the incident may prove of value to some of our readers who might some day be in a similar position and will remember that it is very important to get to the nearest highway and direct the firemen to the scene.

It looks like fall when the heavy traffic on the highways has disappeared, the children are back to school, cooler air makes life more pleasant and the Christmas catalogue has arrived. Now is the time for clubs and church

groups to get together and fall into their regular schedules bringing back the routines that were interrupted by the fast moving days of summer and tourists.

Work on the addition to the United Church is progressing well. The UCV members held their first fall meeting at the church on Wednesday, September 7. After devotions a business meeting was held which included the planning of two dinners that they will cater to in October. An upcoming event is the UCV Rally which will be held in Lochlin on October 5. After the meeting a lunch was served for the ladies and the men working on the building.

A very pretty wedding took place on September 3 when Brenda Sanderson and Garnet Young of Peterborough were married at the Bancroft Pentecostal Tabernacle. A reception was held in the Lloyd Watson Memorial Centre where a large number of guests gathered to wish the happy couple good luck. Ken and Nadene Sanderson have expressed their gratitude to the members of the ACW who did such a fine job of catering and to Eric Yates who assisted by slicing the meat.

A number of new residents have settled in the village. One of these is Mrs. Eida MacGregor who bought the Lindsay residence on the main street and who moved

here from Cobocok. Mrs. MacGregor had a cottage in Harcourt for 17 years. One of her hobbies is quilt making. Her queen size quilts are said to be of great beauty. Although we are late with this welcome we are very pleased to have Mrs. MacGregor in our village.

A very important sports event took place recently when the Wilberforce girl's baseball team took on the Monmouth Volunteer Firemen. There were plenty of hilarious moments through the game and the girls gave the men a good trouncing - or was it the other way round? An outstanding player for the girls was Jeff Anderson who made some terrific hits and always managed to get to first base. He was also expert at sneaking home. This game was to get the men in trim for a game on Saturday at L'Amable where the Dungan Volunteer Fire Department ball tournament took place. Our men faced two other teams. Feeling sorry for the other guys they allowed them to win. They might not be as generous when they meet next year.

There was a fire at the Wilberforce Veneer plant on Saturday, September 10. Bob Anderson saw smoke coming from the building at about 8:30 in the morning. He notified the firemen at once. They discovered a fire burning in the boiler room which was quickly brought under control.

Senior League

from page 8
where Rev. Westhaver spent some years before.

We are sorry our Cheryl Dillon has a strep throat, it seems there is always something to get a person's goat. We saw your picture in the paper of the winning ball team, congratulations gals, does it all seem like a dream?

We have Fred Bamforth here a real nice guy we say, he walks down to Minden sometimes twice a day. Then there is Victor MacBrian (if he can find his hat) he could walk several miles a day, now how about that?

The Kinmount horticultural society ladies came over Thursday afternoon, brought along a lovely lunch and we

played some lively tunes. Some of our residents just took a chance, Ted, Lola, Edith and Linda did the chicken dance. They also waltzed around the room and did the heel and toe. We thank the Kinmount ladies and to make the job complete one of them danced to "Oh Susanah" in her stocking feet.

Bingo started Thursday night with members of the Kinsmen Club, Larry Amyotte and Steve Crowe, we thank you for coming and putting on the show.

With Annie Cox we were having a little chat and she said one of her great grandsons has bought the Minden

Laundromat. The Shorter's son came up from Oshawa and he was really glad to have a nice visit in their townhouse with his mom and dad.

Friday afternoon we had no singsong as it used to be, instead we saw the second part of the movie "The Wilderness Family", a most interesting picture and still it has one more part. We have enjoyed it from the very start.

House and Home
A house is built of logs and stone, Of tiles and posts and piers. A home is built of loving deeds, That stand a thousand years. (Victor Hugo)

IN MINDEN DROP ADS INTO NORTHLAND SURPLUS BEFORE 3:00 P.M. MONDAYS...

Gooderham News

by MARY HADLEY
On August 30, the "Deck-hands" from Kingston presented two shows at the Glamorgan Public Library. Over 25 were present and really enjoyed the presentation. The three talented young puppeteers ad libbed and brought the children into the plays by mentioning their names and making them feel a part of the programme.

Rupunzel's Tower, the story of the wicked witch who imprisons the lovely princess in a tower and isolates her from the world until the prince rescues her, never fails to please. Their rendition of "Puss-in-Boots", an old favourite, seemed to fascinate the children.

These young puppeteers are very talented and bring much enjoyment to the children and adults alike.

Holiday visitors of Pearl and Albert Cary were members of their family, Barbara and Doug Higgins of Mississauga and Bonnie and Dave Woolley of Oshawa.

While working at Bark Lake Camp, Larry Travis, oldest son of John and Grace Travis, met with an unfortunate accident. Riding a three-wheeled all-terrain vehicle, he sustained severe injuries, necessitating removal to Sunnybrook Hospital. We are glad to report that he is out of the intensive care unit and may be able to return to his home soon.

Doug and Donna Simmons of Thunder Bay, with their two sons, spent last weekend with Donna's parents, Priscilla and Clifford Mintz. Their daughter, Joyce, who had been visiting here, returned with them.

Vivian and Blair Hanthorn of Lindsay spent last week at their Pine Lake cottage. Among their visitors were grandsons Andre and Max Webber of Gellert.

Darlene and Lorne Hunter with their sons, Scott, Curtis, and JR, have returned to Oshawa after spending holidays at their Pine Lake home.

Mossom and Mary Madill have spent much of the summer at their cottage on Pine Lake. Mossom returned to Toronto to resume his principalship with the September re-opening of school.

With them for the holiday weekend were their daughter, Debbie, her husband and their two grandsons, Kyle and Jason.

Verna Webster returned to her home after spending some time in Oshawa, where her husband, Ken is still a patient in the General Hospital there. We trust he will be able to return home soon.

Theresa Clemens Mason of Cedarbrae visited Mrs. Mae Pickens and Vaneta for the last week or so. Formerly she attended school here with Mrs. Pickens and Mrs. Luke Dovel. The three ladies enjoyed reminiscing.

After a short stay in the Haliburton Hospital, Hilliard Stoughton has been able to return to his home. His daughter is spending some time with him.

Melanie Dewey has been accepted for a three-year diploma nursing course at Sir Sandford Fleming College in Peterborough. Melanie has shown great aptitude in this type of work and her friends rejoice with her that she will be able to continue in her chosen field. She will start her classes September 6. We all wish you success, Melanie!

After spending last year working in Early Childhood Education in Alberta, Tammy Dewey has returned to her home here.

Pearl and Albert Cary, accompanied by their daughter, Susan and her new baby, travelled to the cottage of Pearl's sister, Joyce, at Magnetawan, where they spent a few days. While there they visited Ross and Susanne Cary.

The annual meeting of the Glamorgan Senior Citizens was held on September 6 in the Community Centre. Forty members and friends sat down to a tasty meal of turkey a la king which was a variation from the usual sandwich luncheon. Chairman, Ivan Hunter welcomed several guests and then introduced the special guest, Bill Scott, M.P. who has been instrumental in helping with the acquisition of several grants from New Horizons for which we are very thankful. He spoke briefly on the

riding of Victoria-Haliburton and compared the different parts in their use of these grants. He also showed how the amount of these grants had steadily increased over the last few years. Fred Vanderland ably conveyed the thanks of the group.

The election of officers for the ensuing year then took place. Before vacating the chair, Ivan Hunter thanked the executive for their support in the year past. Gordon Barr conducted this part of the meeting. As chairperson of the nominating committee, Jean Frazer presented the proposed slate of officers. Gordon then called for nominations from the floor. As a result the executive for next year is as follows: president, Ivan Hunter; first vice president, Fred Vanderland; second vice president, Ken Kell; secretary, Marjorie Madill; treasurer, Mary Hadley; directors, Violet Billings, Brian Dermott, Jean Frazer, Ileen Hunter, Walter Madill, Dorothy Robertson; committee for special events, Evelyn Vanderland and Peggy Dermott.

Gordon expressed appreciation to the executive of the past year. Len Smith at the piano and Walter Baron on the accordion led in a sing-song after which games such as darts, bridge and euchre brought the evening to a close.

We are happy to report that Larry Travis has returned from hospital in Toronto following his serious accident.

Visitors with Evelyn and Hubert Alsop recently were their niece, Inez with her husband, Bill Richmond of Barrie and Willie and Olive White of Warrimster.

June Tousignant of Hamilton is visiting at the home of her sister and brother-in-law, Margaret and Dallyn Pickens.

Recent visitors of Grace Billings included Les, Rosie, Darryl, Carla, Fran and Jay Lambertson of Michigan; Roy and Jean Dear of Niagara Falls and her son Leslie, with his wife, Gladys, and their children, Brian and Connie of Lanark.

The weather co-operated with the efforts of the re-

creation committee to make last Saturday's Yukon Jubilee an unqualified success. The pancake breakfast set the tone for the day. Chef, Bill Kendall, with his efficient assistants, produced delicious golden pancakes with syrup and sausages.

The five horseshoe pits were the scene of much interest and activity. Winners of the trophy were Harvey Roberts and Wayne Graham. Prizes which had been donated went to Bruce Armstrong and Heinz Franke in second place, Gary Sine and Steve Woodward who stood third while Bill Piel and Ron Mintz came fourth. The committee should be congratulated for the artistic decorations inside the centre. The tall basketball standards were most attractive with their coloured maple leaves. Baskets of cat tails and other wayside fall flowers added to the decor. Here was held the vegetable and flower show. First prize for flowers went to Bob Hunter whose gladioli and dahlias were huge and of such unusual colours. Second prize was won by Priscilla Mintz while Melanie Dewey captured third.

In the vegetable class, Marie Dewey placed first; Priscilla Mintz, second and Philip Billings, third. Thank you to the judges, Sandy Barr and Myria Stoughton, who had no easy job.

Doreen and Bill Kendall showed their talents in their shell craft and the attractive clocks made of beautiful cypress wood.

The Senior Citizens had a table of bazaar items with ideas for Christmas, presided over by Dorothy Robertson and Hazel Bell.

Two winners of the recent contest - a letter telling why they would like to spend a weekend in Haliburton County, were present. Ivan and Ileen Hunter acted as host and hostess to the lucky pair, Connie and Jim Goodfellow, of Wolfe Island, near Kingston. They were guests of Wig-a-Mog Inn for this weekend.

Some costumes of these early Yukon days were in evidence and added to the atmosphere. Talent is not lacking as indicated by those

who made their own for this occasion, complete with bonnets or hats and wearing authentic shoes as found in Barr's upstairs store. Beatrice Hillis couldn't find shoe laces long enough for hers.

It was really baseball weather for the ladies' tournament. Teams registered from Paudash, Buckhorn, Lakehurst, Galway, Apsley, Snowdon, South Burleigh and Gooderham. All the games were exciting. Nancy, from Nancy's Flowers in Haliburton, spent a busy day as base umpire. The tournament continued into Sunday with the Gooderham ladies winning the championship. They played against Paudash. The consolation prize went to Buckhorn who won over South Burleigh.

Those responsible for the dinner outdid themselves. Fred Vanderland, at the barbeque, had the beef done to a turn. This, served with a huge baked potato, a flavourful cob of corn, a cabbage salad which drew praise, and a roll made a delicious and satisfying meal.

The day concluded with a dance to the music of the Lodestones.

There are so many to whom thanks should be given. It required, as usual, much work both in the planning and execution. Jane Franklin and her recreation board can feel rewarded in a job well done. You add much to our community spirit and we thank you sincerely.

Norland Natter

By KELLY GRAHAM

Hi. I'm happy to say that I am presently settled into grade nine at Fenelon Falls Secondary School and while I have felt slightly confused at times I have not been lost yet.

On Saturday, September 3 Joey England of Norland married Miss Pam Doner. They were married at the Pioneer Baptist Church in Norland and held their reception at the Norland Community Hall. Following the honeymoon the newlyweds will be residing in Toronto. I wish them both the best of luck.

Congratulations to Kathy Ricketts, of Thornhill, who won the draw for the giant 7-Up air mattress at Clover Farms in Norland.

Welcome Tom Murphy, new principal of Norland

Public School. I'm sure Mr. Murphy, former principal at Kirkfield, will find his "reign" most pleasant.

Speaking of school, Jacqueline Potter has been chosen by the Laxton-Digby-Longford council as the new Norland Public School crossing guard. Congratulations Jacqueline.

Congratulations also to the Norland Nuggets who won first prize of \$125 in the "B" division of the Coboconk lob ball tournament held in Coboconk during Labour Day weekend.

The Kinmount Fair, always held on Labour Day weekend, had a record attendance of approximately 25,000 people. People were being turned away at the door of the fair dance.

The Township of Fenelon has petitioned the Bell Tele-

phone Company over the small printing in the new telephone directory. Many townships, including Laxton, Digby and Longford, have endorsed this petition.

The winner of Shirley Harrison's latest Wintario ticket was Rae Patullo.

The features playing at the Highlands Cinema in Kinmount for September 16, 17 and 18 are "Annie", (7:00, parental guidance) and "The Terry Fox Story" (9:15, parental guidance).

I must say - this column has certainly been cheerful this week. Bye for Now!

Wait! I almost forgot the euchre scores: ladies high - Joan Bowins, ladies low - Inga Wassell, men's high - Ziggy, men's low - Ken Bowins, lone hands - Mike Puterbaugh.

Drug prevention kit distributed

This fall when 50,000 pee-wee hockey players register for teams, they will receive a timely drug prevention kit

Alcohol and Drug Concerns, Inc. says it has not singled out Hockey because they have more drug prob-

lems than any other sport. It says hockey reaches so many children that it seems the ideal route to send the kits.

Writers' Corner

from page 8

The ranks of gold and crimson maples stand,
And screaming out his raucous ancient story,
The blue jay flaunts across the autumn land.

The swollen harvest moon is rising higher,
How silent now the chill and dark'ning gloam,
Just you and I beside the flickering fire,
It's time to close the cottage and go home.

Jean Brown
Haliburton and Toronto

I love the crisp September days, the glory of the sun's last rays.

I love the beauty of the trees, we wait all year to look at these.

The lakes all look so very blue, they seem to have a different hue.

The sumacs we have always known have a beauty all their own.

The cricket's song once more we hear, telling us another winter is near.

We thank the Lord for all these things and every pleasure Autumn brings.

25. notices

NOTICE TO: Equipment Owners Contractors Rental Companies. The Algonquin Forestry Authority will require equipment and operators to carry out full winter control for 74 kilometres of the Lake Traverse road starting from the end of the pavement 18 kilometres east of the gate to Lake Traverse. Period of winter control to be from December 1, 1983 to March 31, 1984. Interested suppliers of equipment are invited to list the various types of equipment with their hourly or monthly rental rates and forward to the following address no later than Wednesday, September 21, 1983. For further information, please call Dave Barras, 613-735-0173 during normal office hours or write to: The Algonquin Forestry Authority, 84-6 Isabella St., Pembroke, Ontario K8A 5S5. 25-B-14

27. thank you

I am finally home after eleven weeks in hospital. I would just like to say thank you to all who sent cards, letters, flowers, phone calls, and those who visited me, especially Rev. Hicks, all the prayers for recovery. I know the Lord was with me.

A special thank you to my daughters and family - they really did an excellent job looking after their father and myself.

Dorothy Walker. 27-P-14

We would like to express our thanks and appreciation to all that made our wedding day a special one, and for all the lovely gifts.

Thank you, John and Heather Coneybeare. 27-B-14

We would like to thank everyone for their prayers, cards, phone calls, gifts of money and food while Larry was a patient at Sunnybrook Hospital. A special thanks to John Cox of Burnt River who helped Larry at the accident scene. Our thanks to Pastor R. Sauve for his visits and prayers. Also thanks to Dr. R. Heyes, and the staff at Sunnybrook Hospital. Also thanks to Alfred Marques for looking after our animals. The Travlas family. 27-P-14

27. thank you

Rodger and I would like to thank all the neighbours on "Mountain Street" who contributed to our gift. It was always nice to know there were special people close by who cared. I'm sure you will all agree that Judy and Lois deserve a "Special Thank You" from all of us for their efforts over the past years in keeping us a "neighborhood". Thanks girls for all your time spent and the wonderful surprise.

Doug - I'm surprised, but glad to know, you can read a map. I always thought it was Lois who got you from point A to point B and on time none the less. Jeff and I will miss your smiles, waves, and friendly visits. Wishing you and yours love, happiness, and good health.

Linda Boice, Jeff Walker, Rodger Stalkie. 27-B-14

30. weddings

32. in memoriam

SIPE - In memory of a dear husband and father, **EPHRAIM SIPE**, who passed away September 9, 1983. This month comes with sad regret. It brings back a day we will never forget. You fell asleep without goodbye. Our memories of you will never die. They will last forever. Sadly missed and never forgotten, by wife Laura and family. 32-P-14

DEAN, Russell - In loving memory of my dear husband, Russell Dean, who passed away September 19, 1976. I remember the day I met you. And the day God made you mine. I remember the day I lost you dear. And will till the end of time. But with all my tears and heartaches. This one thing has made me glad. That you chose me to share with you. Those wonderful years we had. Till we're together again, love Ethel. 32-B-14
